# \$50,000 Grant Establishes Bail Chair

## Col. Marston To Fill State Board Term

Recently Gov. Morrison appointed Col. Anson D. Marston, chairman of OU's Engineering Dept., to the Nebraska State Board of Examiners for Professional Engineers and Architects.

Col. Marston will fill the unexpired term of Pat Moulton. Moulton, a long time OU Regent, was elected to the Nebraska Legislature in November.

### Ruling by State

The State Attorney General ruled that he could no longer serve on the examiners board. Therefore Col. Marston was ap-

For engineers, there are two tests. The primary one is called E. I. T. (Engineers in Training). It can be taken while a person is still in college.

The other test is for professional registration. It covers seven lines of engineering, containing questions of a professional nature.

In addition to administering exams, the state board also enforces the ethics of the profession. The board holds hearings if any complaints arise. A member's registration may be cancelled if a valid complaint is lodged against that member.

In 1963, the board examined 257 people. Of these, 203 passed. Col. Marston estimates that 300 were tested in 1964.

The board also maintains a listing of all registered engineers and architects in Nebraska. Currently, Col. Marston believes there are 2,000 engineers and 500 architects registered in the state.

## Debaters Host At Tournament

Omaha University debaters will play host today and tomorrow to students from eight states at the Annual Cross-examination Debate Tournament here.

Areas of competition are Cross-exam debate, original oratory, extemporaneous speaking, and oral interpretation.

OU students participating are: Cross-exam debate: Jim Foral — Dennis Adams; Mary Jo Brandt — Janet Volte; John Hubert — Steve Boguchwal; Amy Besche — Karen Carstensen. Original Oratory: DeReef Greene, Lyndall Williamson, Mary Jo Brandt, Janet Volte and Ed Chambers. Extemporaneous Speaking: Jim Foral, Dennis Adams, Steve Boguchwal and Janet Volte.

## OU Ahead Of Nebraska By 37 Years

Nebraska Governor Frank Morrison and the newly elected president of the University of Nebraska Board of Regents, Val Peterson, have gone on record advocating a plan to operate the state's schools, including colleges and universities, on a 12-month basis.

Commenting this week on the proposal, University of Omaha President Dr. Milo Bail said:

"We (the university) are already as close to the 12-month operation as is physically possible. We have been for some time."

Backing up Dr. Bail's statement was OU Registrar Virgil Sharpe.

Mr. Sharpe said, "According to university records, we have been operating summer sessions of one kind or another since 1919."

He said records indicated summer sessions in 1919 but in "1928 we (the university) adopted the two sessions of five weeks each."

According to a story published in the Sunday World-Herald, the University of Nebraska would have to enlarge their summer school program in order to fulfill the year round plan endorsed by the former governor and Governor Morrison.

Under the present NU system, one session, of eight weeks, is offered to summer students. During the eight week period, students may attain a maximum of nine hours. The new plan would increase the amount to 12 hours.

Omaha University's two summer sessions of five weeks enables students to complete 12 hours.

Mr. Sharpe added, "On some occasions a student may even complete 15 credit hours in both summer sessions, but a dean's approval is needed for the last three hours."

In addition to the summer day sessions, Omaha University also operates summer evening classes.

According to Dr. Bail these evening classes have met with "great success". To date, Nebraska has no summer evening classes.

In the same World-Herald story, Mr. Peterson asked Nebraska Chancellor Clifford Hardin why NU has not adopted the "trimester" plan.

Dr. Hardin said the switch was never made due to "high costs".

Dr. Bail echoed Dr. Hardin's statement and added, "It wouldn't help us since we must operate on a schedule that fits our local needs."

Vice-chancellor of NU, Adam Beckenridge, said the adoption of the new schedule at Nebraska would give "barely enough time to 'sweep out the buildings and wax the floors.'"

## 'Eppley Foundation Gift Most Pleasant Surprise'

By Linda Priesman

The Eugene C. Eppley Foundation Thursday approved a 50-thousand-dollar grant to endow a chair at the University of Omaha in honor of Dr. Milo Bail.

It will be the fourth such chair established at OU. Dr. Bail termed his most recent honor as a "most pleasant surprise."

He said he was informed of the Eppley Foundation action just before attending the Order of the Tower luncheon held Thursday noon.

Dr. Bail said before he entered the dining room in the Student Center he was presented with an envelope. "Inside was a note from the Eppley

Omaha lawyer and OU alumna. She attended law school here when the university had such a school.

Edward M. Kerrigan, of Union Pacific Railroad. He is responsible for bringing the numerous management programs to OU.

Miss Margaret Kiewit, teacher at Belle Ryan elementary school. She is a past member of the Alumni Board of Directors.

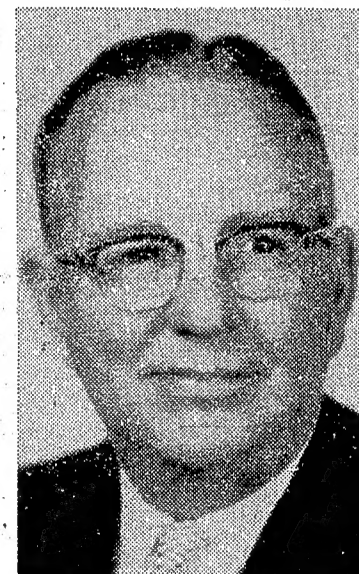

Morris G. Christian, Elton Loucks and J. R. Reifschneider, all members of the Eppley Foundation. This organization is responsible for granting additional funds for the construction of the new wings on the Eugene C. Eppley library.

Casper Y. Offutt, a part time instructor in OU's history department. According to Warren O. Wittekind, executive secretary of the Alumni Association, Offutt does all he can "to talk up the university."

George Pardee, of Metropolitan Utilities District. He is a former regent and Alumni Association president.

Thomas Quinlan, vice president and trust officer of the Omaha National Bank. He is a former member of the Board of Regents and headed the committee for the planning and building of the Student Center. The Student Center has recently been renamed in honor of Dr. Bail.

Owen Saddler, vice president and general manager of KMTV. His station has donated more (Cont.-Page 2, Col. 2)

Dr. Milo Bail

Foundation stating it had approved a 50-thousand-dollar grant to establish the chair," he said.

Dr. Bail said the name of the chair has not yet been decided.

Three other chairs are held by Omaha U faculty members. Roderic Crane holds the Kayser Chair of Economics and Dr. George Harris holds the Kayser Chair of Finance. In addition, Dr. Ralph Wardle holds the Jeffers Chair of Literature.

At the Order of the Tower luncheon, held in Dining Room A, seventeen Omahans were honored as the latest recipients of the University's award.

The new recipients:

Arthur A. Allwine, who donated the farm used by biology classes. The farm is located northwest of the city.

David Blacker, publisher of the Sun newspapers. During the mill levy campaign in 1962, he gave the university strong support in his paper.

William H. Campen, a past member of the Board of Regents.

Walter Christenson, president and editor of the Omaha World-Herald. Like Blacker, he gave the university "much support" during the mill levy campaign.

Miss Theresa Clark, principal of Benson West elementary school. She is an alumna and past recipient of the Alumni Association achievement award.

Miss Margaret Fischer, an

## Plans Announced For Convocation

Dean of Student Personnel Donald J. Pflasterer announced this week, after a meeting with the Student Council, a convocation has been planned for retiring OU president, Dr. Milo Bail.

Dean Pflasterer said the affair will be held in the Fieldhouse January 20 at 9:30 a.m. He said all classes will be dismissed so students can attend. He added the OUampi Room and other student center activities will also be suspended during the convocation.

Student Council President Rich Thompson said the program will include a ceremony conducted by the AFROTC cadet corps and a short response by Dr. Bail.

He said the convocation was the student's way to honor Dr. Bail before his retirement on Jan. 31.

Col. Anson Marston

pointed to fill the vacancy, ending February 28, 1968.

### Board

The board consists of five members, three professional engineers and two professional architects. Terms last five years. Generally the board holds monthly meetings.

The main function of the board is examining prospective professional applicants. There are four areas of consideration: (1) work records, (2) character references, (3) personal interviews and (4) examinations.

## Final Examination Schedule

First Semester 1964-65		
Date	Classes meeting at the following hours	Examination hours

## Biology Class Utilizes TV; Method Draws High Praise

By JIM MONE

With its first season a success, Dr. Merle Brooks was right on target when he said, "No one can say that you can't teach biology on TV. His feelings were reflected by Dr. Charles Ingham, instructor of the University closed circuit course.

With high feelings concerning this semester's start of the program, Dr. Ingham is looking to next semester to be as good if not better than before.

The class, which consists of some 350 pupils, is expected to attract around 200 next semester plus the use of video tape replays for use in night biology classes. Dr. William Bachop will be the instructor in both labs and discussion groups for the night course. Previously, night classes in biology were limited in size.

Dr. Ingham will teach the day class and will be assisted by Dr. Bachop.

"At the start of the class, students objected to the fact that they were unable to ask questions but they didn't realize the size of the class would make too many questions impossible," Dr. Ingham stated. Questions have been usually relegated to the discussion groups but Dr. Ingham added that next semester the lab and discussion periods will be integrated thus allowing the use of creative thinking and problem solving coupled at the same time.

In order to hold the attention of students, Dr. Ingham said that it was necessary to have plenty of movement, change, and various attentive techniques to hold interest. The use of illustrations and microscopic slide specimens have added much to the class.

Dr. Brooks said that in teaching over TV, "it is necessary to use an approach as though you were talking to one person or though you had someone looking over your shoulder. Thus a better job can be done

if you want to put the time in," he added.

He said that closed circuit TV is the only way to teach with the rapid growth of population if a person expects tuition to keep within reasonable amounts. The strength of the program is dependent largely on developing of better techniques. Both Dr. Ingham and Dr. Brooks voiced need for special equipment. One of their desires would be a second video tape machine which would be used to record such things that the other machine would be unable to record at the same time.

They also look to the future with the use of testing devices which would communicate from the studio to the individual student. With the addition of computers to this method it would be possible with "just a few questions a day, with a light board portraying the students response to measure the grade of the person for the semester," Dr. Brooks added.

High credit was given to the fine work and cooperation of the TV personnel of the OU TV department in the presentation and performance showed. Dr. Brooks added that not over a minute was lost in the semester due to mechanical difficulties.

### Eppley Foundation Gift Creates 'Chair'

(Cont. From Page 1)

TV equipment to OU's studio than any other television station.

Frank Scott, program director of radio station KBON. According to Whitelind, his station offered to carry the OU football games several years ago before the station became affiliated with the ABC network.

Judge A. C. Thomsen, dean of OU's now-defunct law school. He is a former member of the board of trustees and of the board of regents.

The luncheon was held in Dining Room A.

## Library Basement Good Bomb Shelter?

By DAN NOVOTNY

Are you still trying to find the right bomb shelter on campus? Do the typical four-barewalls, nutritional crackers and empty water cans found in ordinary "refugee centers" leave you with the following impressions?

Gad, how would you entertain a gang of 100 students down here for a week — there's nothing to do! If the bombs don't get you, the boredom will.

Well then, look to the basement of the Gene Eppley Library; for, besides being an emergency - equipped domicile for the physically - minded, it is also a home for the ledgers of progress — old books, newspapers and magazines.

The materials located here are known as closed - stacks. Interpretively, this means that they are not open to you for general curiosity or reading. These volumes are almost entirely for research and graduate work.

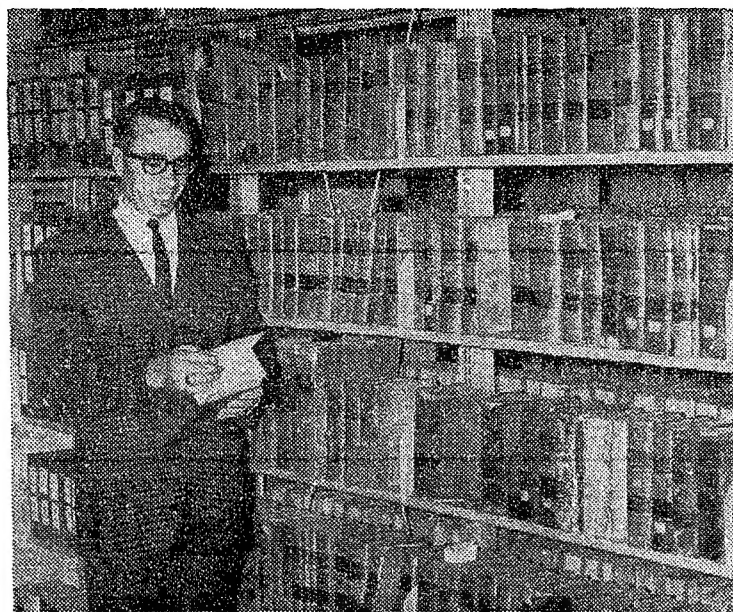

United States Government Documents, being over 80,000 in number, take up most of the space. Here are contained records of the House and Senate dating from 1798. A notable amount of "works" from Congressional Committees are also suspended in acquiescence in this section.

## Papers

In case you missed reading the evening WORLD-HERALD a while back (before 1948, all others on microfilm upstairs), you could catch up, possibly write a historical thesis, while you wait out the blast. The NEW YORK TIMES dating from 1914 to 1948 is available, too. For those exhibiting a more discreet taste, there is the GATEWAY, Vol. XIII of 1933, to the near present (early editions must have had extremely high popularity).

## Left-leaning Texts

Perhaps a more interesting relic gathering propriety than those already mentioned is the Icarian Collection of books. It

Documents Librarian Verne Haselwood

appears as if these texts were handed down from a socialistic experiment not unlike that of Brook Farm.

The volumes were purchased from the old Tabor College that succumbed during the depression of the 1930's. Some of the books, which date from 1790, could undoubtedly supply a great amount of social - society research were it not for the fact that they are written in French; however, the dropping of a bomb might encourage some souls to mingle with these philosophies rather than those that had failed.

One of the oldest and priceless historical books is a 1613 edition of the King James Bible. The first edition was issued in 1611. The work actually belongs to a group of books that is being kept safe in the basement for the Presbyterian Theological Seminary. According to the library, the collection is to remain at the University for a long, indefinite time.

## Pillars of Strength

Aside from the educational possibilities of the books found in this shelter, they serve a worthy ulterior purpose, too. The shelves are attached firmly from floor to ceiling. The mass of volumes on each

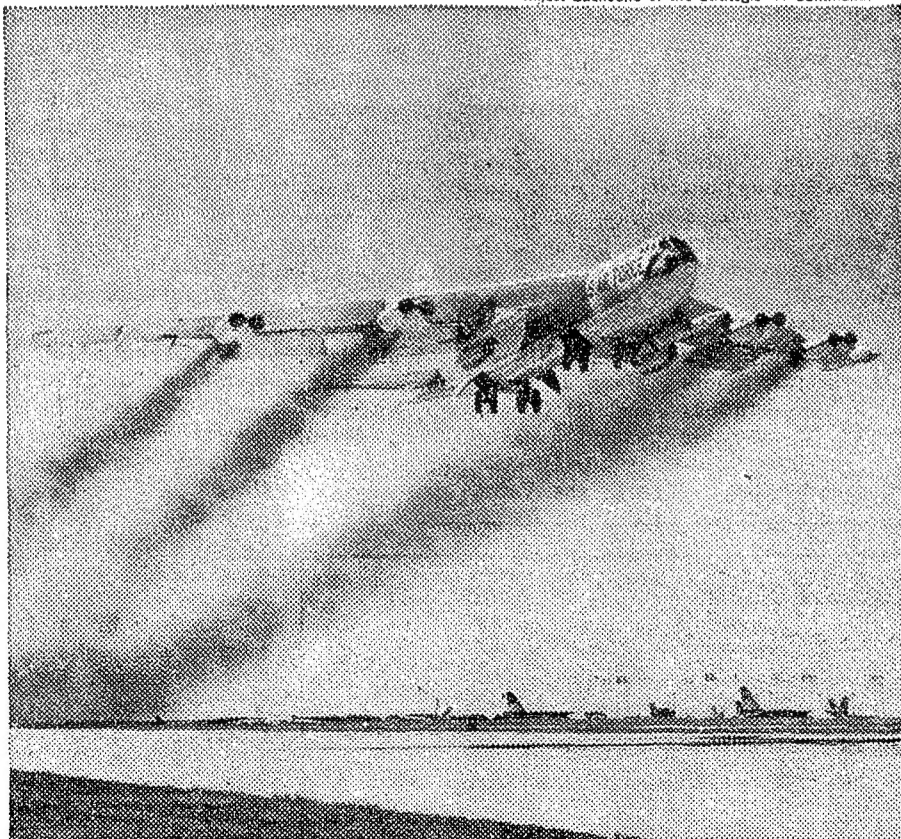

shelf would act as strong pillars if the existing cement columns should give way to shock and tremor. Oftentimes the sheer size of a book can accomplish more than the thought resting within it.

Of course, this shelter also contains the usual provisions—enough for a rated capacity of 120 people. There are 54 barrels containing 17 and one-half gallons of plastic - wrapped water each, 42 boxes of nutritional crackers and six buckets for sanitary purposes.

As was mentioned before, the library basement contains things that are of no great value to most undergraduates; however, if you ever chance to need a reference that has a card catalogued in red ink: "Closed Stacks", do not hesitate to ask a librarian to get it for you. The books are not there solely to enhance an impressive feeling of substantialness but to help you in your quest for education. The librarian is there to make sure you find the books.

The service of the shelter is offered in much the same regard — in the advent of a need, the doors will be open to you. In this way, the library's key to knowledge may also be spoken of as a key to salvation.

B-52, 8-engine jet bomber with range of over 9000 miles. Backbone of the Strategic Air Command.

### Are you ready for a multi-million-dollar responsibility?

If you are, there's a place for you on the Aerospace Team—the U. S. Air Force.

No organization in the world gives young people a greater opportunity to do vital, responsible work.

For example, just a short while ago a 23-year-old Air Force lieutenant made a startling breakthrough in metallurgy. And a recent All-America tackle is doing advanced research in nuclear weapons.

If you have talent, you'll have a

chance to show it in the Air Force. Your work can put you and your country ahead.

You can earn your commission at Air Force Officer Training School, a three-month course open to both men and women. To apply, you must be within 210 days of your degree.

For more information, contact the Professor of Air Science. If your campus has no AFOTC, see your local Air Force recruiter.

## Honors For Bail Continue As Retirement Draws Near

Retiring President of Omaha University, Dr. Milo Bail, has been honored several times during the past week and another event is scheduled for tomorrow night.

The Interfraternity Council held a luncheon at noon Monday in the SC Dining Room. Dr. and Mrs. Bail were the guests of honor.

Dr. Bail was presented with an award in appreciation for all that he has done for the University.

Other guests included Mr. William Gerbracht, Dean Donald Pflasterer, Mrs. Thurman Engle and Dean Elizabeth Hill.

On Wednesday, the Women's Division of the Omaha Chamber of Commerce honored Dr. and Mrs. Bail at a dinner at the Sheraton Fontenelle Hotel.

Mrs. John Merriam, a member of the OU Board of Regents, was the guest speaker.

Over 800 members of the women's division were invited to attend.

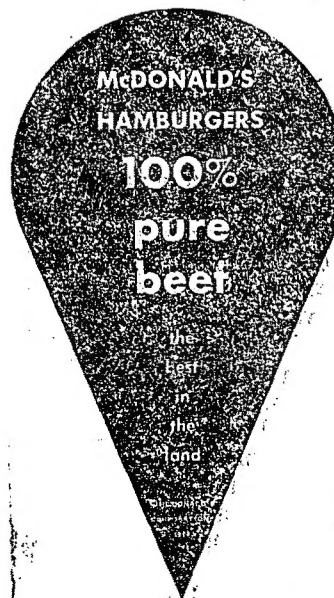

Dr. and Mrs. Bail were guests of honor at the annual Home Economics Continental Dinner held yesterday. Dr. Bail received a gift from the Home Ec Club.

Office work in Europe is interesting

## SUMMER JOBS IN EUROPE

Grand Duchy of Luxembourg—You can earn \$300 a month working in Europe next summer. The American Student Information Service is also giving travel grants of \$390 to the first 5000 applicants. Paying jobs in Europe include office work, resort, sales, farm, factory, child care and shipboard work just to mention a few. Job and travel grant applications and complete details are available in a 36-page illustrated booklet which students may obtain by sending \$2 (for the booklet and airmail postage) to Dept. J, ASIS, 22 Ave. de la Liberte, Luxembourg City, Grand Duchy of Luxembourg. Interested students should write immediately.

80th & Dodge

Tomorrow evening, beginning at 7 p.m., the faculty, staff, Board of Regents and Alumni Board of Omaha University will hold a dinner in Dr. Bail's honor.

More than 500 people are expected to attend this event to be held in the Milo Bail SC Ballroom.

Dean Donald Pflasterer will be the master of ceremonies. Mr. Roderic B. Crane will be the guest speaker.

## Scholar Picked By Corinthians

The Corinthian Society is honoring Mrs. Judi Hoevet as January Scholar-of-the-Month.

A sophomore in the College of Education, Mrs. Hoevet has earned a 3.8 accumulative grade point average for 41 credit hours.

After graduation, Mrs. Hoevet plans to teach on the high school level. The 19-year-old has a double major in English and library science and is taking 17 credit hours this semester.

Mrs. Hoevet is attending the University of Omaha on a Regents Scholarship. She is active in SEA.

Mrs. Hoevet's husband Bill is a sophomore at the University of Nebraska College of Medicine here in Omaha.

## Music Recital

The Upper-Division Music Recital will be held in the Conference Center Auditorium this Sunday at 7:30 p.m.

## Economics Class Will Be Taught By Guest Lecturers

Dr. E. J. Steele, head of the economics department, has originated a new class in banking. With the help of the Nebraska Banking Association, he has arranged for professionals to teach the Economics of Commercial Banking course.

"Next semester will be the first time a course like this will be offered in Nebraska," said Dr. Steele. "Money and Banking will be the prerequisite."

Omaha bank executives and others associated with the Treasury or Federal Reserve System will instruct the class. Lecturers will appear on a volunteer basis. The complete schedule has been set and all topics have been selected.

A question and answer period will follow each lecture.

The two hour class will be held on Tuesday from 3 to 5 p.m. in room 210 of the Applied Arts building. Dr. Steele, who is coordinating the course said, "There will be no tests in this course prior to the final on June 1."

## Speech Contest Held on Campus

Warren Gore, assistant professor of speech at Omaha University, announced last Wednesday that an Interpretation Contest will be held on campus the week of February 8 through 12.

The object of the contest is to select two people to represent OU at the Western Illinois Interpretation Tournament (March 5-6).

All students are eligible for participation. Those interested should contact Allan Longacre, Dudley Sauve or Warren Gore, of the OU speech department, for further information.

## Old Worm Comes To Class

Nebraska can add facts to the story of earth's development. A fossil, believed to be 500 million years old, was displayed by Betty Marchant to her Tuesday night Natural Science class studying prehistoric fossils. She said her interest in the class started with the fossil.

According to Mrs. Marchant, the "fossil worm," a Trilobite, was discovered near her home at 11422 North 36th St. nearly a year ago. "A neighbor and my children were splitting rocks when they found it."

She continued, "The fossil is from the Paleozoic Era which is the third in five periods of development. We are part of the fifth era. The Ice Age took place early in this period." This science course is the only class

Mrs. Marchant is taking.

The mother of three children, she is working towards her teaching certificate.

## Dean Harper To Talk At Eng. Club Meeting

Sigma Tau Delta, English honorary, will hold a meeting at 7:30 p.m. tonight at the home of Dean Robert D. Harper, 5847 Pine Street.

Guest speaker will be Dean

Harper who has chosen "What's Been Happening to the Novel?" for his topic.

All members are asked to attend the meeting so the TOMA-HAWK can take pictures.

# Borsheim Talk Stirrs OU

Borsheim . . . Explains Strategy

Story At Right  
Indian James Myers Cans Two Points

## Denver Tonite . . .

# Grapplers On Colorado Tour; Champs Pressed

Omaha's ambitious wrestlers take a two day tour of the Rockies starting tonight with a match a Denver University. The two match swing will wind up tomorrow at Adams State.

The young Indians surprised everybody in a good crowd of 400 last Saturday by pressing NAIA champ Moorhead State, 15-11 before bowing.

Lack of strength in the lower weight classes proved OU's downfall as heavier teammates came through with clutch performances.

Omaha winners were Jim Jones at heavyweight, Jerry McDonald at 147, and Rich Tomasek at 177.

McDonald's pin of Wally Otto in 2:10 was the only such decision of the night for either team.

## Moorhead favored

The heavily favored Minnesota team had two national champs returning but only one showed up. 130 pounder Jim Dreitzler took the measure of OU's gritty Gerry Shook, 4-2. Shook looked even on strength but lacked only saavy in his scrap with the champ.

Heavyweight champ Bob Billberg was reported left home because of disciplinary reasons by Coach Bill Garland. His replacement, Dennis Lewis, gave Jones all he could handle and then some, before bowing 3-2.

Lewis appeared angered by Jones at one point and refused to take his position. He lost one point and the match by doing so.

Tomasek deserved a pin against Dick Miller of Moorhead. He had the Minnesotan on the ropes but referee Howard Sorensen detected Miller's hand inside Tomasek's jersey.

The result: three points for Tomasek and the match. That score would have been five points for a pin and put OU that much closer.

## Results

123 pounds—Rick Kelvington, Moorhead, declassified Dick Hall, 5-0.  
130—Jim Dreitzler, Moorhead, declassified Gerald Shook, 4-2.  
137—Rick Stuyvesant, Moorhead, declassified Jim Fuxa, 4-0.  
147—Jerry McDonald, Omaha, pinned Wally Otto in 2:10.  
157—Raphasel Gonshorowski, Moorhead, declassified Reggie Williams, 3-0.

177—Rich Tomasek, Omaha, declassified Dick Miller, 7-2.  
Heavy—Jimmy Jones, Omaha, declassified Dennis Lewis, 3-2.

## Indians Take Top

# Washburn Squelched; Augustana Here Tues.

By MIKE MORAN

A great second half defense that completely stymied a previously potent Washburn offense led Omaha U to a very satisfying 75-48 win at OU Tuesday night.

A partisan crowd of over 1300 whooped it up as their favorites moved from a precarious 36-34 halftime lead into a commanding margin within five minutes of the second stanza.

OU's brilliant playmaker, Marlin Briscoe had given the Indians their two point cushion at the half with a pair of free throws after time had run out.

No one in the excited crowd even visualized the blitz that would hit Washburn some twenty minutes later.

## Defense the key

Omaha U. (75)			
	G.	F.	T.
Singleton	10	5-7	25
Haas	3	0-4	6
Villnow	6	4-4	16
Edwards	0	0-0	0
J. Myers	3	3-3	9
Briscoe	4	2-2	10
Woodward	3	2-2	8
Osterhaus	0	0-0	0
Burruss	0	1-1	1
Davis	0	0-0	0
Vincent	0	0-0	0
Totals	29	17-23	75

Washburn (48)			
	G.	F.	T.
Hendrix	4	2-2	10
Hibbard	3	1-2	7
Ford	6	4-5	14
Nelson	5	0-1	10
Gibb	1	0-1	2
Tenpenny	0	0-0	0
Payne	0	0-0	0
Bein	0	0-0	0
Douglas	0	0-1	0
Lindell	0	0-2	0
Gray	0	0-0	0
Shipstead	1	1-2	3
Totals	20	8-16	48

Obviously aroused by Coach Jim Borsheim's halftime talk, the Indians took after the Blues with a tenacious defense that completely shut the Kansas team off for ten minutes.

In fact, the Blues scored only six field goals in the second half and shot a miserable 19 percent in dropping their first CIC contest.

Big Sam Singleton led OU with 25 points and turned feeder much of the time. Centers Larry Villnow and Ed Woodward suddenly discovered that basketball can be a big man's delight and turned in aggressive perfor-

mances that kept the boards much to Omaha's favor.

Villnow got 16 points despite repeated foul trouble and soph Briscoe added 10 and his usual brilliant floor game.

The win was number three of the season against a single loss in conference play for Omaha. It gave the Indians sole possession of first place in the CIC, at least until Saturday night when they play Pittsburg at Pittsburg.

OU's record for the season is now 6-7 with five out of the six wins coming at home.

## Hays Triumphs

OU took loss number one in CIC play Saturday night at Fort Hays, bowing to the Tigers, 92-63. The so-called "shock troops" of the Kansas team proved to be just that to OU in the second quarter.

With OU leading, 19-18, and ten minutes to go in the first half, the Tiger subs came in and proceeded to press, rattle and in general, make life miserable for Omaha.

When their work was done, Fort Hays had a safe 44-24 lead at the intermission.

The second half proved no better for OU as they were outscored to the tune of 48-39. The Indian scoring ace, Sam Singleton, was held to 11 points.

Marlin Briscoe and Frosh Bill Haas led OU scoring with 14 points apiece. No other OU player had more than six.

Omaha U. (63)			
	G.	F.	T.
Osterhaus	2	0-0	4
Singleton	5	1-1	11
Villnow	2	2-2	6
Briscoe	6	2-4	14
C. Myers	2	1-1	5
Haas	7	0-0	14
J. Myers	1	0-1	2
Woodward	2	1-3	5
Burruss	0	1-2	1
Cribbs	0	0-0	0
Vincent	0	1-4	1
Totals	27	9-18	63

Fort Hays (92)			
	G.	F.	T.
Schur	2	1-2	5
Gerstner	6	2-3	14
Dozel	2	3-6	7
Stout	2	1-1	5
Kinlund	9	2-2	20
Masha	6	4-4	16
Billinger	2	0-0	4
Loche	3	1-3	7
Strait	3	2-4	8
Treszen	1	2-2	4
Undregg	1	0-0	2
Ehrlich	0	0-1	0

Highway 275, South Omaha Bridge Road  
Phone 341-6097  
Council Bluffs, Iowa

Dear Senior:

Did you know that you can own a new Volkswagen sedan for as little as \$200.00 down and defer the first small \$52.00 payment until early spring? Yes, if you can qualify under our senior plan, you can drive to your new position in a new Volkswagen or a new VW station wagon.

Qualifications? A position upon graduation, be it in education, industry, medicine, armed forces, scholarship grant or any gainful employment. Married students end your moving problems with a VW station wagon, pack everything and the trip to your new location will be an enjoyable adventure. Small fry are our best boosters.

Come in soon and discuss this graduation offer, inspect our wide selection of models and colors.

Very truly yours,

MARTIN J. COSTELLO, II
